

Jack Edwards

CECA North West Young Professional of the Year 2014

Whitendale Pipeline, The Forest of Bowland

- 3km pipeline
- Steel butt-fusion welded, slip-lined polyethylene and iron ductile pipes
- Renovation of existing aqueducts

Bridgewater Canal Towpath Phase 7, Manchester

- 2.6 km of canal towpath renovation
- Removing overgrown vegetation and replacing with tarmac footpath
- Finished with tar and chippings
- City Centre project
- Installation of coping stones and relaying of cobbles

Bridgewater Canal Towpath Phase 7, Manchester

- Difficult project due to narrow path and weight restrictions
- Learning from past experience, water based plant was used
- Pontoons with 2 or 3 skips used to move materials up and down the canal

Old Swan HWRC, Liverpool

- Steel frame WEEE building and canopy over recycling areas
- Prefabricated welfare unit installed on site
- My 3rd project of this type with CHC

DVSA Doxey, Staffordshire

- On M6 motorway in Staffordshire
- To be used by the DVSA as a vehicle inspection building
- Large inspection pit for assessing under-carriage of vehicles

Thank You

Jack Edwards
