# Motorway Achievement books available from CIHT

## Motorway Achievement books available from CIHT

Publishers of the five regional volumes of The Motorway Achievement have offered the remaining stock of their books to CIHT.

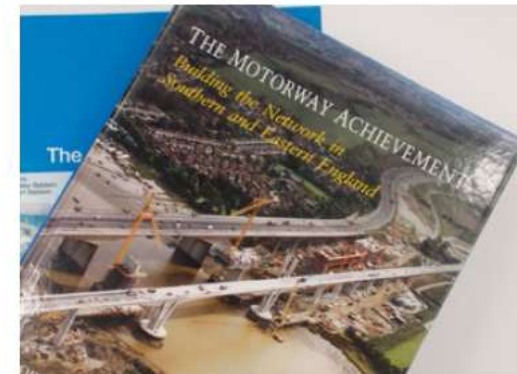

These books, together with the sister books published by Thomas Telford, are said to be the only

definitive record dealing with the planning, design and construction of the motorway network in England and Wales.

"A limited number of these brilliantly written and superbly presented books will be available either individually or in sets at a

substantial discount to the cover price," said John Carrington FCIHT – author of the Midlands volume.

For further information contact Justin Ward at CIHT or John Carrington on [johncarrington38@btinternet.com](mailto:johncarrington38@btinternet.com)

Speak to Vineeta for your free copy.
